so many fake sites. this is the first one which worked! Many thanks

Implementation Challenges

- ❶ The initiative to implement **ABC** system must be strongly supported by the management. The workings involve a tremendous job of making inquiries from employees.
- ❷ The design and implementation of **ABC** system should be the responsibility of a cross functional team of technicians. Normally, the team would include representatives from accounting, finance, IT, marketing, production and engineering departments.
- ❸ Services of an **ABC** system consultant must be hired in order to prevent the wastage of resources and time.
- ❹ Selection of **ABC** software that could implement and automate the processing of the system should be made upon expert advice. We have given a list of **ABC** system softwares as **Appendix A**.
